Retailer Comments

Extended Black Exterior Pack | 22" Wheels - Gloss Black (Style 5098) | Ebony, Windsor Leather & Kvadrat Seat Trim | Tow Hitch Receiver | 518 HP 5.0L Supercharged V8 Engine | 0-100 km/h in 5.2 Seconds | Electronic Air Suspension with Adaptive Dynamics | Terrain Response 2 with Dynamic Program | 13.1-inch Pivi Pro Touchscreen | Head-Up Display | Meridian™ Surround Sound System | ClearSight Interior Rear-View Mirror | 3D Surround Camera | Sliding Panoramic Roof | 14-way Heated and Cooled Electric Memory Front Seats | 7,716 lb Towing Capacity | The 2026 Land Rover Defender 90 P525 V8 is the ultimate expression of the short-wheelbase icon, blending brute force with unmistakable agility. At its heart lies a thunderous 5.0-liter supercharged V8 engine producing 518 horsepower and 461 lb-ft of torque, capable of launching this compact powerhouse from 0 to 100 km/h in just 5.2 seconds. This performance is amplified by the standard electronic air suspension and the specialized Dynamic Program within the Terrain Response 2 system, which sharpens throttle response and stiffens the damping for a truly visceral driving experience on or off the tarmac. The interior of the Defender 90 V8 is a masterclass in purposeful luxury, featuring a refined palette of Ebony Windsor leather and premium Kvadrat™ textiles. The driver-focused cabin boasts a 13.1-inch Pivi Pro touchscreen, a standard Head-Up Display, and a heated suedecloth steering wheel with Satin Chrome gearshift paddles. For ultimate convenience during long expeditions or city commutes, this flagship model comes standard with a front centre console refrigerator compartment to keep drinks chilled, alongside 14-way heated and cooled memory front seats that ensure maximum comfort regardless of the terrain outside. Visually, the V8 is distinguished by its quad exhaust pipes, signaling its high-performance status. It remains a world-class off-roader with an 800mm wading depth and an electronic active differential that provides relentless traction. Safety and visibility are prioritized with standard Matrix LED headlights and the innovative ClearSight interior rear-view mirror, which provides a high-definition video feed even if the cargo area is fully packed. Combining a 7,716 lb towing capacity with the agility of the 90 chassis, the 2026 Defender V8 is the most capable and exciting short-wheelbase SUV ever produced.
