Retailer Comments

Additional options included: Air Suspension Pack Premium Upgrade Interior Pack Light Cloud, Perforated Windsor Leather Seats Tow Hitch Receiver The 2026 Land Rover Defender 110 P400 X-Dynamic SE is the definitive modern icon, engineered for those who demand world-class off-road capability without sacrificing on-road refinement. Powered by a 3.0-liter Inline-6 Mild-Hybrid engine, it produces a robust 395 horsepower and 406 lb-ft of torque, providing effortless power for both highway overtaking and technical trail navigation. The X-Dynamic SE trim enhances the Defender's rugged silhouette with a Black contrast roof and Satin Silicon Silver accents, while the standard electronic air suspension allows the vehicle to adapt its ride height for everything from easy passenger entry to clearing deep obstacles with 11.5 inches of ground clearance. Inside, the Defender 110 offers a cabin that is as sophisticated as it is resilient. The 2026 model features a massive 13.1-inch Pivi Pro touchscreen, the largest and most intuitive interface ever offered in a Defender, paired with a 700W Meridian™ Surround Sound system for a premium acoustic experience. Occupants are treated to 12-way heated and cooled electric memory seats upholstered in high-durability Resist and Resolve materials, perfect for an active lifestyle. The interior is further elevated by the ClearSight rear-view mirror, which uses a camera feed to provide an unobstructed view behind the vehicle even when the cargo area is fully loaded to its 2,277-litre capacity. Designed to conquer the world's harshest environments, the Defender 110 P400 comes standard with Terrain Response 2, which automatically optimizes vehicle settings to match the surface beneath you. Whether you are fording water up to 900mm deep using the integrated Wade Sensing technology or towing a segment-leading 8,201 lbs, this vehicle remains composed and in control. Safety is paramount, with a comprehensive suite of driver assistance features including a 3D Surround Camera, Adaptive Cruise Control, and Blind Spot Assist. For the Canadian driver, the standard cold climate features and legendary All-Wheel Drive system ensure that no destination is off-limits, regardless of the season.
